High Quality PTFE Sealing Tape

- A new, thicker, professional-grade density
- Protects against rust and corrosion
- Creates a permanent, watertight seal
- Easy to apply

Designed for threads made from galvanized steel, iron, brass, copper, aluminum, stainless steel, polyethylene, polypropylene, PVC, CPVC, ABS, fiberglass and more.

Will not harden or crack on the joints

TOUGHER SEAL

Raven PTFE polytetrafluoropolyethylene thread sealing tape is a thicker, denser, general-purpose thread seal tape. Fewer wraps are necessary to affect a leak-proof seal and it applies easily. No waste, and no re-taping make sealing joints an easy task. Raven thread sealing tape is manufactured from PTFE resin, a polymer consisting of recurring tetrafluoroethylene monomers (CF₂-CF₂)_n formula.
